NEWS for Immediate Release

Visioneer Announces OneTouch Scanning To Award-Winning Xerox DocuShare Enterprise Content Management Solutions

OneTouch Link enables any Visioneer or Xerox® DocuMate® scanner to capture, manage, share and protect vital information

Pleasanton, CALIFORNIA – May 7, 2009 – Visioneer®, Inc., a leader in intelligent imaging solutions today announced a Visioneer OneTouch® Link to Xerox DocuShare® – a Web-based electronic content management platform that allows users to easily and securely share, store, search, and archive information. With the [Visioneer OneTouch® Links Software Development Kit \(SDK\)](#), a link was created that allows users to scan paper documents, from any Visioneer or Xerox-branded scanner with OneTouch technology, directly into any Xerox DocuShare electronic repository with the touch of a single button.

Xerox DocuShare is an affordable, easily deployed, and highly scalable solution platform. DocuShare offers both the basic content services needed for widespread document management and image capture, and the advanced ECM capabilities necessary for more complex document workflows including certified records management and workflow capabilities for better governance.

“Using the OneTouch link to DocuShare, organizations can tightly control valuable information by directing the flow of documents from capture or creation to distribution, to archiving or eventual destruction,” said John C. Gonzalez, director, product management and business development in the DocuShare Business Unit at Xerox.

“Xerox DocuShare is an ideal solution for any document-intensive business, offering process efficiencies and enabling companies to transform a variety of applications from paper to digital,” said John Dexter, vice president of business development at Visioneer. “DocuShare’s business process and content automation capabilities, combined with its ability to support compliance initiatives, helps organizations save substantial amounts of time and money, in addition to protecting the information they need.”

All documents scanned through any OneTouch Link also have improved image quality instantly through use of Kofax VRS technology which is integrated in Visioneer OneTouch. This is done immediately after scanning so that imperfect original documents are sent to Xerox DocuShare with significantly improved image quality.

Availability

The OneTouch Link to Xerox DocuShare is available for download from Xerox at http://docushare.xerox.com/products/ds_products_downloads.html. The link is also available through Visioneer at <http://www.visioneer.com/onetouch>.

Visioneer SDK for ISVs

The Visioneer OneTouch Links SDK is a wizard-based template that can be used to easily implement new functionality within the Visioneer OneTouch interface. Links developed with the OneTouch Links SDK will have access to all OneTouch functions, including the benefits of Kofax VRS technology that is integrated into Visioneer OneTouch. Links can be created to provide scan-to destinations, such as applications, devices (printers or fax servers) or locations (network or local folders).

The OneTouch Links SDK list price is \$499, which includes a support component, and is available from Visioneer. For more information, developers should contact the Visioneer business development team at onetouchsdk@visioneer.com.

About Visioneer

Visioneer provides a broad range of scanning solutions for the desktop, distributed and departmental document imaging markets as well as the mobile and remote business scanning segments. In 2003, Visioneer combined its leading scanner technology with the Xerox brand recognition to develop the Xerox DocuMate product line. Visioneer and Xerox DocuMate high-performance business scanners and imaging software solutions offer users speed, image quality, advanced paper handling and ease-of-use with exclusive Visioneer OneTouch™ technology. These products have received numerous awards including AIIM Best of Show in 2004 and 2005, as well as consecutive PC Magazine Editors' Choice Awards in 2005 and 2006. For additional information on Visioneer and Xerox scanning solutions, visit www.visioneer.com or www.xeroxscanners.com.

Visioneer offers both product lines under a single reseller partners program. The 20/20 Perfect Vision program optimizes VAR margins and sales opportunities through volume incentive rebates, sales support and marketing tools. Additional information can be found at www.visioneer.com/2020.

About Xerox DocuShare

Xerox DocuShare is an enterprise content management (ECM) platform developed by Xerox Corporation. DocuShare's capabilities range from basic content services to more robust business process automation and paper-to-digital solutions. Xerox DocuShare also offers a number of [partner solutions](#) for vertical and cross industry business processes. For more information visit www.docushare.com or call 1-800-735-7749.
